

SAFIRA Academy

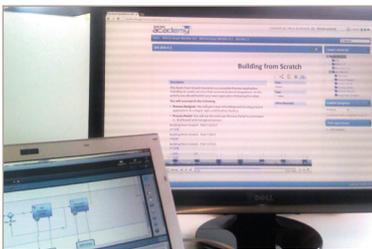

At SAFIRA, we believe knowledge sharing and industry good practice are critical to achieving continuous growth and driving value.

SAFIRA's Academy mission is to foster Business Agility and accelerate know-how. This includes upskilling your organization in Business Process Management (BPM), Operational Decision Management (ODM), Mobile technologies and delivery methodologies.

Alongside a comprehensive training offering presented in our Training Catalogue, SAFIRA Academy delivers tailored training solutions designed and implemented according to each client's learning needs, the trainees' profiles and the outcomes you are looking to achieve. Our training programs provide a weighted mix of theory and practice, technology features and functionalities, but most important it focus on real best practices and provides real-life experience to trainees (what really works and what doesn't).

All the training content and courses provided by SAFIRA Academy have been designed, implemented and thoroughly tested within our professional services practice prior to making them publically available. This curriculum is used to train our professionals before having them integrated in project teams all over the world. Our track record of success stories over the last 17 years speaks for itself.

Training Services

Self-Paced Virtual Training (with Tutor)

Supported by an e-Learning platform, SAFIRA Academy provides a set of self-study resources, with tutoring by a certified specialist as an option, so that trainees are monitored and supported as they go through their chosen training path.

The training content made available in these courses has been developed for remote learning, with specific techniques to maximize the learning process' outcomes

and allow knowledge acquisition via theory and practice, with interactive materials, exercises and evaluations. Having the flexibility to define the learning pace and schedule, eliminating displacement and minimizing out-of-office periods, are some of the advantages of this training model.

Face-to-Face Training

Delivered by certified specialists and professionals with extensive delivery and development experience. These face-to-face courses represent a great opportunity to acquire an enriched, broad and detailed learning experience.

These courses can be tailored to specific profiles and aligned with your objectives. We create an environment where theory and practice come together, illustrated with

war stories and real-life experience sharing, enabling trainees to get a very vivid training experience.

Formal Certification

SAFIRA is an IBM Premier Business Partner. This means that our staff hold several hundred formal certifications in IBM Smarter Process and other technologies and also certifies that our training programs are aligned with IBM's requirements and standards.

We are committed to adding value to your team.

Send us an e-mail to ptkpmg@kpmg.com or call us at +351 210 938 210, and ask for a tailored training program to develop your organization's skills in BPM, ODM and Mobile. | www.safira.pt/go/academy

"The training sessions are delivered in a very interactive approach, creating engaging sessions"; "Learning was easy!"; "It was great to have demonstrations, practical exercises and so much dialog!"

Rui Palma, CIO
Açoreana Insurance, Portugal

"The training was excellent and professionally delivered. Excellent content and very easy to follow, with very good exercises. Both trainers had very good grasp of the English language and were able to handle tough questions. I believe in certain areas it exceeded our expectations."

Tahir Mehmood
DMG Manager, Techtronic Industries, UK
